

Is your organisation engaged in Research & Innovation activities? Learn more about EU funding available through the Marie Skłodowska-Curie Actions (MSCA).

“Involvement in MSCA projects, in particular Doctoral Networks, has many benefits for us-raising the profile of the work we do at European level, ensuring that the voice of our patient members is heard and considered at all levels, providing us with the opportunity to educate doctoral candidates on the importance of public and patient involvement in research, and knowing that they will carry this forward with them in their future careers.”

Fighting Blindness, Charity and MSCA project partner.

MSCA have a €6.6 billion budget under Horizon Europe and support the mobility of researchers between countries, sectors and disciplines to acquire new knowledge, skills and competences.

Benefits for Organisations

- Access **fully funded** talented and experienced researcher(s) for up to three years.
- **De-risk** your research – receive funding for a project suited to your needs.
- Strengthen your research and innovation **capacity**.
- Access **world-class infrastructure** and expertise not available in-house.
- Collaborate in **global networks**.

- Receive EU funding – **100% funding** of researchers including budget for project and indirect costs.
- Establish sustainable **international** and **intersectoral collaborations**.
- **Brand enhancement** – boost your organisation’s international visibility.
- **One stage submission process** with annual calls on set dates.

Who can apply?

- Non-academic organisations (e.g., museums; charities; companies; government departments; etc.) can participate.
- **Different levels of participation available** – depending on an organisation’s capacity and needs, entities can decide to **lead or partner** with other organisations.

Supports

- The **Irish Marie Skłodowska-Curie Office** offers a range of supports to help Ireland-based organisations apply for MSCA funding including:

**Webinars and
information sessions**

**Tailored consultancy
on proposals**

**Proposal writing
handbooks**

**Proposal pre-review
service**

For more information or to discuss an MSCA call that suits your organisation, contact Jane on 01-7996032.

Email: mariecurie@iua.ie

Marie Skłodowska-Curie was a trailblazing scientist whose legacy is known around the world. She was famous not only for her pioneering work in chemistry and physics, for which she was awarded two Nobel prizes, but also for her dedication to breaking down gender barriers in teaching and education, and for her research-enabled humanitarian efforts in World War 1.

Her legacy extends into the EU's Marie Skłodowska-Curie Actions - named in her honour because of the shared core values of excellence, mobility across borders and sectors, equality, and interdisciplinarity in research.

The Marie Skłodowska-Curie Actions are a European Commission Funding Programme which fund researchers at all stages of their careers, across all research disciplines and in all sectors.
